

UDS Business Data Masking

Adding custom lists Guide

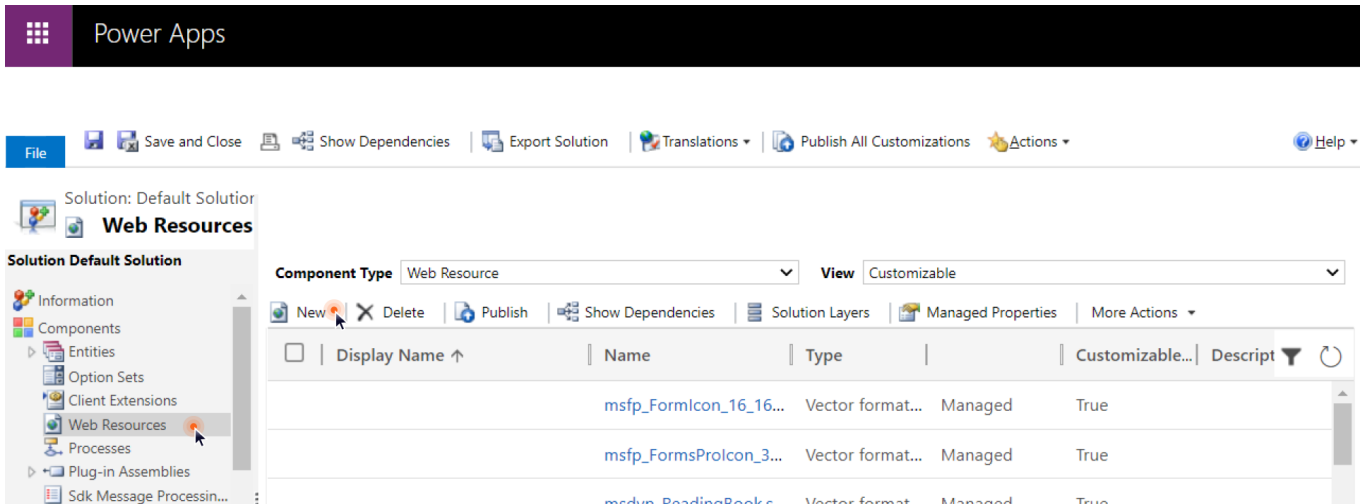

How to add custom masking lists Guide for UDS Business Data Masking.

Steps for uploading your own data masking lists to the system.

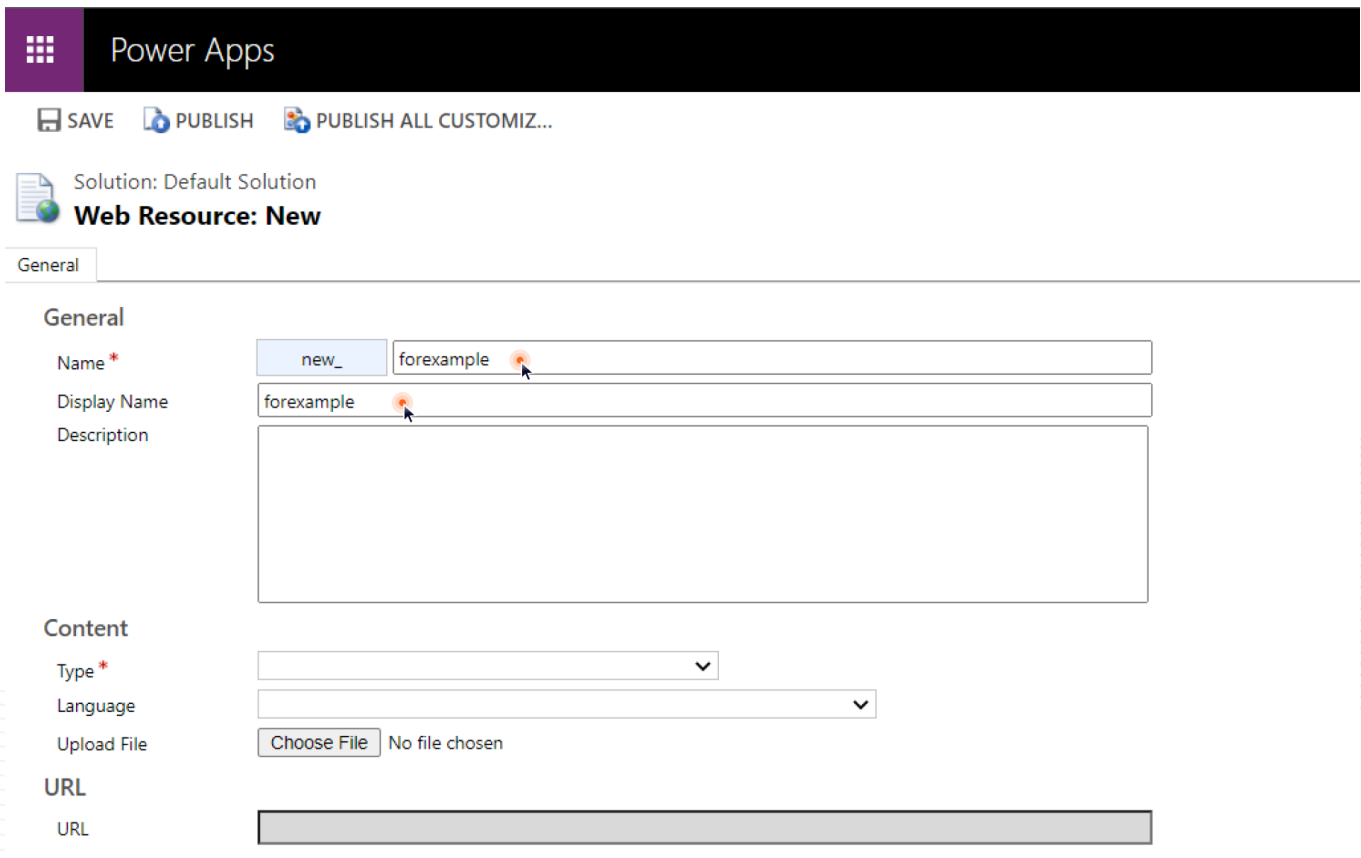

1. Prepare a list. For example, find a list of company names on the Internet.
2. Paste the list into any text editor. And save as "anyname.**bdm.html**" without spaces. Use a unique name, don't use the names existing in the system, they will NOT be accepted.
3. Open the **Settings** menu in Dynamics 365, select **Customizations**, and then - **Customize the System**.

4. Select **Web resources** and click **New**.

5. Enter **Name** as "anyname.BDM" and **Display name**. The web resource name must also be unique.

6. Choose **Type > Webpage (HTML)**. Click **Choose File** to upload the saved file to the system.

Warning! To prevent formatting, don't click the Text Editor button.

The screenshot shows the 'Power Apps' interface for creating a new 'Web Resource'. The top bar includes 'SAVE', 'PUBLISH', and 'PUBLISH ALL CUSTOMIZ...' buttons. Below the bar, the solution is identified as 'Default Solution' and the resource is titled 'Web Resource: New'. The 'General' tab is active, showing fields for 'Name' (set to 'new_'), 'Display Name' (set to 'forexample'), and 'Description'. The 'Content' section shows 'Type' set to 'Webpage (HTML)' with a 'Text Editor' button next to it. The 'Language' field is empty. Under 'Upload File', the 'Choose File' button is highlighted with a red box, and the file 'forexample.bdm.html' is listed. The 'URL' field is empty. At the bottom, there is a checkbox for 'Enable for mobile' which is currently unchecked.

7. Click **Save**, then click **Publish**.
